

BANO QABIL 2.0

Name: Esha Atif,
Kanwal Hussain,
Wania Manzoor

Campus: Anjuman Complex, Sakhi Hasan

Batch code: 1603

Course: Web development – 1

(Final project Assignment)

Assignment object: A sample Banoqabil 3.0
website.

FINAL ASSIGNMENT:

PROJECT DETAILS:

INTRODUCTION:

Web development is the process of creating websites that allow users to view and interact with content over the internet. It helps us to promote our respective business. As we were given a task to make a website, so we make a BANOQABIL 3.0 website. As it would be a unique idea and would be helpful in Banoqabil 3.0.

We made it same as Bano qabil 2.0 website just a few changes. We add different web pages to our website to make it responsive. We use HTML, CSS, and JavaScript to make this website.

ABOUT WEBSITE:

So when you open our website, our front page welcomes you here,(same as the Actual Banoqabil 2.0 website) with the navigation bar including home, about us, Programs, Courses, Campuses, Gallery, Contact us & FAQs .

HOME:

This page is the first top page that appear when you open the website. It contains pictures, and the logo of Banoqabil. And it contains the access for all other pages and it has the links of all pages.

ABOUT US:

Next page comes of about us that shows introduction of the website. About the facilities it provides and the educational record of this website. About us contains all necessary information about the institute.

PROGRAMS:

Then you will be provided by the programs or courses this website offer for the youth of Pakistan. It contains all I T programs that Banoqabil provides to student. It will help you to find selective one without any problem and wastage of time.it includes php scripts for data transfer.

COURSES:

Then you'll be provide by the courses we provide. About every detailed information kf our courses.

CAMPUSES:

Here you'll be provided about every detail of our each campus, about where it is located and what courses which campus provided. We use maps here for complete address. And to make it look effective.

GALLERY:

Here we made two sections i.e. of photos and videos. It has a number of photos and videos of this program and their success. We took these pictures from Banoqabil official website.

CONTACT US:

We add a form in contact us page. And linked it to excel spreadsheet to make it responsive. IF you have any query you can write your msg over and submit it by clicking on button 'send'.

FAQs:

It contains all the answers of frequently asked questions to remove all sort of misunderstandings from students.

CONCLUSION:

This is our complete assignment which we completed with html and css using different tags and options which we studied in our class. We took this sample of Banoqabil website and all the pictures and videos were of official website. We made this by the information and learning that our teacher Miss. Sumbul gave us.
